1. Claims 30-36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 30, line 6, it is not clear what is meant by replacing interface circuits of each node connected to the data line free from the working data traffic since in the specification lines 6-26 of page 13 discloses a pair of interface circuits rather than interface circuits to be replaced. Applicant is suggested to change the step of replacing a pair of interface circuits of each node connected to the data line free from the working data traffic. Same suggestion for step d), line 8, change the interface circuits to the pair of interface circuits. Same suggestion for claim 31 and 32.

2. Claims 19-29 are allowed.

3. Claims 30-36 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
